

DHB Series DHB 430A 1D1

Technical datasheet

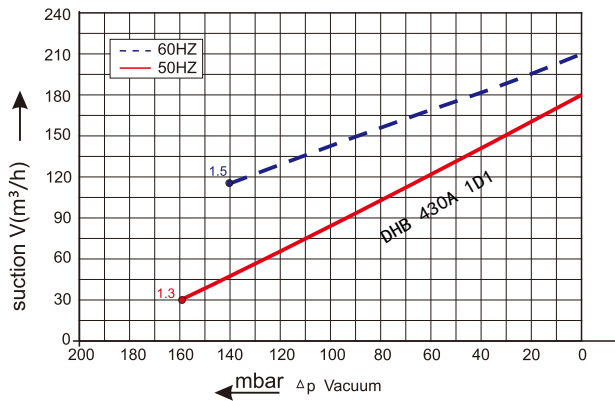

DEREIKE

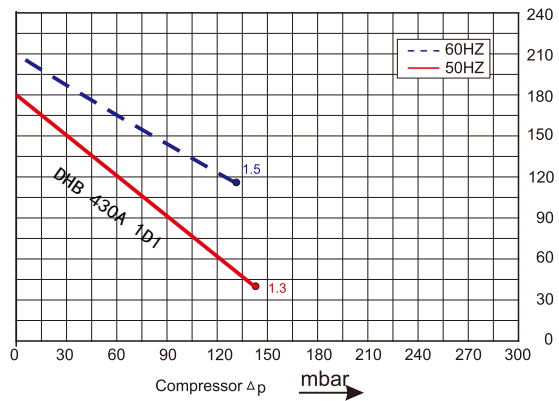

Dereike blower performance curves

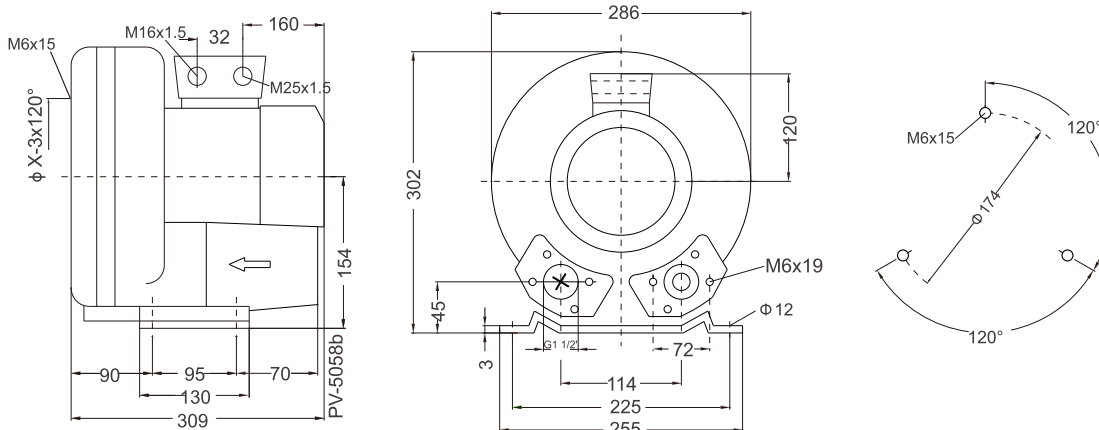

Vacuum selection diagram curve

Compressor selection diagram curve

Dereike blower installation drawing

Dereike blower installation parameter

Model	Frequency	Output	Voltage	Current	Airflow	Pressure		Noise	Weight
						vacuum mbar	compressor mbar		
DHB 430A 1D1	50	1.1	200-240△	7.3△	180	-150	140	64	17
	60	1.3	220-275△	8.3△	210	-140	130	66	17

The performance curves of Dereike blower is tested through below ways:

Under one atmospheric pressure, suck 15°C air and then you can calculate the data, of course allow 10% difference, and when the sucked air and surroundings temperature are not higher than 25°C, you still can get total pressure difference as the curves shows.
